Electrical Cable Accessories

[Cable Terminal Ends](#)

These are the most commonly used types of terminal ends, lugs. These tubular terminal ends, lugs, both for crimping and soldering, are manufactured from soft drawn, pure, high conductivity copper tubes conforming to BS 1997. They are fully annealed to ensure quantities of electrical and mechanical strength, and are also produced from aluminium tubes as per IS 5082 (mainly used with power distribution ...

CONNECTORS

- [Copper 'C' Type Connectors](#)
- [Long Barrel Connectors](#)
- [Short Barrel Connectors](#)
- [Copper Connectors With Solid Barrier](#)
- [Connector As Per Australian Standard](#)
- [Tinned Copper Reducing Links](#)
- [Soldering Type Copper Weak Back Ferrules](#)
- [T - Connectors](#)
- [Cross - Connectors](#)
- [Tinned Screw Sleeves](#)
- [Aluminium - Copper Bi - Metal Connector / Splice](#)
- [Aluminium Through Connectors](#)
- [Aluminium Splice For LV & MV \(Upto 30 KV\)](#)
- [Aluminium Sector Ferrules](#)
- [Insulated In - Line Connectors](#)
- [Copper End Sealing Ferrules](#)
- [Insulated End - Sealing Ferrules](#)
- [Twin End Sealing Ferrules](#)
- [Tinned Copper Flexible Braids - Crimped With Connectors / Terminals](#)
- [Line Taps / Split Bolts](#)
- [Split Bolt Connector With Round Head](#)
- [Insulated Screw Connectors](#)
- [Aluminium Single Barrel Connector, One Hole Mount](#)
- [Aluminium Double Barrel Connector, One Hole Mount](#)
- [Aluminium Double Barrel Connector, Two Hole Mount](#)
- [Copper Compression Sleeves - Short Barrel](#)
- [Copper Compression Sleeves - Long Barrel](#)
- [Butt Connector](#)
